

The Democracy Machine: How One Engineer Made Voting Possible for All (Paperback)

By Jon Silman

Gatorbytes, United States, 2015. Paperback. Book Condition: New. 216 x 140 mm. Language: English . Brand New Book ***** Print on Demand *****.The University of Florida has an ambitious goal: to harness the power of its faculty, staff, students, and alumni to solve some of society's most pressing problems and to become a resource for the state of Florida, the nation, and the world. Engineer Juan Gilbert, a specialist in human-centered computing, was driven to make it possible for people with disabilities to vote like everyone else. He spent 10 years perfecting Prime III, an accessible electronic voting system, and his creation was tested in real voting settings and earned rave reviews from elections supervisors around the country. Learn the story behind the voting machine designed to be used by everyone, and meet the man who has dedicated his life's work to helping people who have been marginalized exercise this country's most empowering guarantee: the right to vote. The stories chronicled in GATORBYTES span all colleges and units across the UF campus. They detail the far-reaching impact of UF's research, technologies, and innovations and the UF faculty members dedicated to them. Gatorbytes describe how UF is...

Reviews

An exceptional publication as well as the font employed was exciting to see. it was actually writtern extremely flawlessly and helpful. Once you begin to read the book, it is extremely difficult to leave it before concluding.

-- **Dominic Collins**

This ebook could be worthy of a read through, and far better than other. I am quite late in start reading this one, but better then never. I realized this publication from my dad and i advised this publication to learn.
